Agency Models: CT50L0N, CT50LFN, CT50LUN, CT50LUN-W

CT50-MULT-RS Rev D

Caution! - Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the equipment.

Mise en garde ! - Tout changement ou modification non expressément approuvées par le bénéficiaire de cet appareil peut annuler l’autorisation d’utiliser l’équipement.

For body worn operation, this device has been tested and meets the limits regarding human exposure to electromagnetic radiation set forth in related FCC, IC and EC rules, guidelines and standards for use with the following body worn accessories: holster. Use of other accessories may not ensure compliance with the mentioned rules.

Fonctionnement près du corps : ce dispositif a été testé et s’avère conforme aux règles et lignes directrices des normes FCC, IC et EC, relatives aux limites d’une exposition humaine sécuritaire au rayonnement électromagnétique pour une utilisation près du corps des accessoires suivants : holster. L'utilisation d'autres accessoires peut ne pas assurer la conformité avec les règles mentionnées.

R&TTE Compliance Statement—802.11a/b/g/n/ac and Bluetooth
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

Canadian Compliance
This device complies with Industry Canada license-exempt RSS standard(s).
Operation is subject to the following two conditions:
1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Réalisation du spectre 5 GHz : Sub-band 5,150 - 5,250 GHz de la 5GHz LE-LAN (License Exempt Local Area Network Devices) pris en charge dans ce dispositif est autorisée pour une utilisation en intérieur uniquement.

Conformité à la réglementation canadienne
Cet appareil est conforme aux normes RSS avec exemption de licence d’Industrie Canada. Son fonctionnement est assujetti aux conditions suivantes:
1. Cet appareil ne doit pas causer de brouillage préjudiciable.
2. Cet appareil doit pouvoir accepter tout brouillage reçu, y compris le brouillage pouvant causer un fonctionnement indésirable.
Bande 5 Ghz : La bande inférieure de 5,150 à 5,250 GHz de la 5GHz LE-LAN (License Exempt Local Area Network Devices) pris en charge dans ce dispositif est autorisée pour une utilisation en intérieur uniquement.

USA, Canada NRTL Safety

Warning! To prevent possible hearing damage, do not listen at high volume levels for long periods.
Avertissement : A pleine puissance, l’écoute prolongée peut endommager l’audition de l’utilisateur.

Microwaves
The radio in the CT50 computer operates on the same frequency band as a microwave oven. Therefore, if you use a microwave within range of the Dolphin RF computer you may notice performance degradation in your wireless network. However, both your microwave and your wireless network will continue to function.
Battery Safety Information
CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. The battery should be disposed of by a qualified recycler or hazardous materials handler. Do not incinerate the battery or dispose of the battery with general waste materials.

MISE EN GARDE : RISQUE D'EXPLOSION SI LA PILE EST REMPLACÉE PAR UNE PILE D'UN MAUVAIS TYPE. La pile doit être jetée par un recycleur compétent ou un responsable des marchandises dangereuses. Ne pas incinérer la pile ou la jeter avec les déchets généraux.

LED Safety
LEDs have been tested to the Standard: IEC 62471:2006. The camera flash assembly is classified as: Risk Category 2.

Caution: When using the camera flash, keep the camera flash LED at least 350 mm (13.8 in) away from the subject's eyes. Otherwise serious damage to one's eyes may occur.

Mise en garde : Lors de l'utilisation du flash de la caméra, ne pas approcher la LED du flash de la caméra à moins de 350 mm des yeux du sujet. Le non-respect de cette consigne pourrait entraîner des lésions oculaires chez ce dernier.

Laser Compliance and Precaution
This device has been tested in accordance with and complies with IEC60825-1 ed2.0 and 21 CFR1040.10 and 1040.11, except for deviations pursuant to Laser Notice No. 50, dated June 24, 2007. The CT50 is registered with the CDHR as a Class 2 LASER Product. This product has a maximum output of 1 mW at 650 nM.

Caution: There are no user-serviceable parts inside the CT50. Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

Informações ANATEL (Modelo CT50)
O equipamento deverá ser utilizado a uma distância mínima junto ao corpo de 1.5 cm.

Este equipamento opera em caráter secundário, isto é, não tem direito a proteção contra interferência prejudicial, mesmo de estações do mesmo tipo, e não pode causar interferência a sistemas operando em caráter primário.

Este produto está homologado pela Anatel, de acordo com os procedimentos regulamentados pela Resolução No. 242/2000 e atende aos requisitos técnicos aplicados incluindo os limites de exposição da Taxa de Absorção Específica referente a campos elétricos, magnéticos e eletromagnéticos de radiofrequência, de acordo com a Resolução No. 303/2002 e nº 533/2009.

Para maiores informações, consulte o site da ANATEL: www.anatel.gov.br.

Compatível com os seguintes carregadores:
- CT50-NB
- CT50-EB
- CT50-USB
- CT50-CB
- CT50-HB

Fornecido com bateria modelo CT50BTSC, nr. de homologação 2615-15-7239.

Fornecido com os seguintes carregadores:
ADS-65LSI-12-1 12036E: número de homologação ANATEL 2724-15-5026. Este carregador será comercializado com a seguinte base/doca/periférico: CT50-EB.
ADS-110DL-12-1 120084E: número de homologação ANATEL 2725-15-5026. Este carregador será comercializado com a seguinte base/doca/periférico: CT50-USB.
PSA10F-050Q: número de homologação ANATEL 2611-15-4477. Este carregador será comercializado com a seguinte base/doca/periférico: CT50-EB.

Fornecido com os seguintes modelos de capa: X13447-V2-R0 X13446-V1-R0

注意：用户不可以随意将操作系统更换成其它类别的操作系统，操作系统的更新需要从目前设备上所安装 OS 的供应商得到许可。

警示：禁止拆解、撞击、挤压、或投入火中。若出现严重鼓胀，请勿继续使用。请勿置于高温环境中。电池浸水后禁止使用！
RF Exposure Information (SAR)
The mobile phone meets the government's requirements for exposure to radio waves. This phone is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government. The exposure standard for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/Kg and for Europe 2 W/Kg. Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output. The highest reported SAR values for head, body-worn accessory and simultaneous transmission use conditions for the FCC and the CE are listed in the tables below.

Caution: If a body worn accessory is not purchased from Honeywell, the accessory must contain no metal and provide a 1.5 cm (0.6 in) space between the device and the body. Use of antennas and accessories not authorized may void the compliance of this product and may result in RF exposures beyond the limits established for this equipment.

While there may be differences between the SAR levels of various phones and at various positions, they all meet the government requirement. The FCC has granted an Equipment Authorization for this model phone with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this model phone is on file with the FCC and can be found under the Display Grant section of www.fcc.gov/oet/ea/fccid after searching on FCC ID: HD5-CT50L0N, HD5-CT50LFN.
